- Southern Africa

Direct Delivery Logistics LTD offers a comprehensive range of logistics solutions, including:

Domestic and Regional Freight Transportation

Domestic and Regional Freight Transportation is the movement of goods within a country (domestic) and across neighboring countries (regional). It's the backbone of trade—connecting manufacturers, warehouses, ports, borders, and final customers.

- Road transport: Trucks, Vans, motorcycles (last-mile king)
- Rail freight: Bulk goods, long distances, lower cost per ton
- Air Freight: Urgent, high-value items
- Inland waterways : Heavy and bulk cargo

Applicable for :

- Manufacturers
- Importers & exporters
- Retailers & wholesalers
- NGOs & humanitarian agencies
- Construction companies
- Agribusinesses
- E-commerce platforms

Consignment and Shipment Handling

We cover the end-to-end management of goods from the moment they're received from the sender until they're safely delivered to the consignee. The goal: speed, accuracy, and cargo safety—no drama, no losses.

CONSIGNMENT HANDLING

- Receipt & verification: Check quantity, condition, and documents
- Documentation: Consignment notes, delivery orders, invoices
- Labeling & identification: Barcodes, shipment IDs, fragile marks
- Storage (if required): Short- or long-term warehousing
- Tracking & updates: Real-time status for clients

SHIPMENT HANDLING

- Packaging & palletization: Secure, stackable, compliant
- Loading & unloading: Safe handling to prevent damage
- Mode coordination: Road, rail, air, or sea transfers
- Transit monitoring: GPS, seals, temperature control (cold chain)
- Delivery & POD: Proof of delivery and reconciliation

Cross-Border Logistics Solutions

We manage the movement of goods between countries—handling transport, customs, compliance, and delivery so cargo crosses borders smoothly, legally, and on time.

WHAT WE COVER

- International & regional freight transport
- Customs clearance & documentation
- Duty, tax & regulatory compliance
- Transit bond management
- Cargo tracking & visibility
- Final-mile delivery in the destination country

MODES USED

- Road freight: Most common for regional trade
- Rail freight: Cost-effective for bulk cargo
- Air cargo: Urgent and high-value goods
- Sea + inland transport: Port-to-border and inland delivery

Supply Chain Support

We ensure that goods move efficiently from source to final customer by coordinating logistics, inventory, transport, and information flow. It's the glue that keeps operations smooth, costs controlled, and customers happy.

WHAT WE COVER

- Procurement & Sourcing Support
- Warehousing & Inventory Management
- Transportation & Distribution
- Documentation & Compliance
- Supply Chain Visibility & Reporting

BENEFITS TO CLIENTS

- Reduced operational costs
- Improved delivery reliability
- Better inventory control
- Faster order fulfillment
- Scalable growth across regions

Last-Mile Delivery Services

Last-mile delivery is the final (and most visible) step in logistics—moving goods from a hub, warehouse, or distribution center straight to the customer’s doorstep. It’s where speed, accuracy, and customer experience matter most.

WHAT WE COVER

- Door-to-door parcel delivery
- Same-day & next-day delivery
- Cash on Delivery (COD) support
- Proof of Delivery (POD)
- Real-time tracking & notifications

MODES USED

- Motorbikes: Fast, flexible, perfect for urban areas
- Vans & pickups: Medium to bulk deliveries
- Bicycles & walkers: High-density city zones
- Electric vehicles: Cost-efficient & eco-friendly
